Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

¹ Services may enhance safety; these visual inspections are not comprehensive safety inspections. ² Valvoline recommendations are general guidelines based on the engine needs of a wide range of vehicles. ³ Service times are estimates. ⁴ Prices are not final and subject to change. ⁵ Vehicle owners' manuals typically have two different mileage intervals. Most drivers (70%) fall under the shorter intervals termed "severe" (stop-and-go, short trips, hot/cold temperatures, towing or cargo roof systems). Intervals here based on these "severe" driving conditions when available. In some cases where the manufacturer recommendation is not available the service is a Valvoline recommendation.
